Kathy – attached is a no notes version of what I currently have for the tribal webinars. I think it can very easily be adapted for the NCAI presentation. It's not pretty – I haven't gotten that far yet (I was thinking this wasn't needed until a bit closer to the webinar dates), but it's functional!

Hey Kathy – just a reminder that I committed to putting together a presentation for the tribal webinars. I'm working on that now, so I wanted to give you notice that it's underway and there's no need for you to move forward on it yet.
